is centrally situated in the triangular figure bounded by lines drawn from Omaha to Cheyenne, thence to Denver, from thence to starting point. It is 20 miles from the first named city, 25 miles from the second, and 200 miles from the third. Having a population of 4,000 people it is the headquarters of both freight and passenger divisions of the U. P. R. R. Co., and is the home of about 200 railway employees whose monthly pay roll amounts to some \$15,000.00. Almost 200 miles of irrigation canals are rapidly nearing completion, which will bring into the highest state of cultivation 150,000 acres of the most productive land upon which the sun's rays shine. The citizenship of North Platte is that of the best afforded by the older states, and her people are active, progressive and prosperous. To the industries, energetic home-maker from the crowded east North Platte and Lincoln county presents unusual advantages. Thousands of acres of vacant government land, in close proximity to those already being brought under irrigation, may be obtained by consulting the United States land office in North Platte. A letter of inquiry to "U. S. Register, North Platte, Neb.," relative to the above will be courteously answered. Irrigation farming is no longer an experiment, but has reached the point where it is acknowledged as a pre-eminently the safest in all seasons method of conducting agricultural and horticultural operations. The salubrious and life-giving climate of Lincoln county, where malaria is unknown and where pulmonary troubles are unknown of, is another incentive to the location there of those who are anxious to enjoy the good things of life as long as possible. North Platte churches and schools are about those of eastern communities, the latter being one of the few in Nebraska permitting "in graduate" to enter the State University without an intermediate preparatory training. The people of the community gladly welcome the honest, industrious eastern citizen who is eager to better his condition and assist in the upbuilding and development of a comparatively new country.

WARD McALISTER, the leader of New York City's social 400, has just died of the very vulgar and ordinary la grippe.

The coroner's jury upon the bodies of the fifty-seven victims of the Butte, Mont., explosion has returned a verdict holding a couple of hardware firms responsible for the loss of life.

The Reilly funding bill in regard to the Pacific railways indebtedness to the government was defeated in the lower house of congress last Saturday by a vote of 177 to 103. For the best interests of the people along the line the foreclosure proceedings should be consummated.

MEXICO has given Mr. Cleveland a taste of his own Hawaiian medicine. It has informed the "consecrated" prophet that its dispute with Guatemala is none of his concern. In our foreign relations Mr. Cleveland can rely upon to keep his hands off of nothing except American affairs.

SAID Senator Cullom in his speech after receiving the caucus nomination for the United States senate: The alphabet of republicanism is found in the dictionary of patriotism. The language of republicanism is the language of liberty. The establishment of republicanism is the guaranty of prosperity.

A MEAN man in Illinois legislature has introduced a bill imposing a penalty upon women who wear big hats in theaters and other public places of amusement and worship. The women of the Sucker state will now no doubt insist upon an extra sized Gainsborough head covering which they will more persistently flaunt than ever before.

SAM GOMPERS, erstwhile president of the American Federation of Labor, who is now a statesman out of a job, is intending to go back to his old trade, that of cigar making. It will prove a great relief to labor organizations when all the "walking delegates" are compelled to get down again to labor, and in the perspiration of their brows earn their bread.

BREK' ORR admits in his article that there was a meeting of the big triumvirate held last week behind closed doors, but like the prudent populist partisan that he is, fails to give the entire proceedings. One grievous error he made, however, was the admission that the windows were curtained. Was the assemblage for an honest, straightforward purpose there would have been no need to screen the proceedings from the public. Talk about your old party politicians putting up a job on the rank and file of their organizations, let one of these razor-back populists be brought in and lodged by a hard coal fire at public expense, and as old veteran Stebbins said last fall of one of them, put a coat on his back, and fill his belly full of grub—and "budge," and he is as full of tricks and deceit as a jackass is of wind. The whole matter illustrates the old adage of putting a mendicant upon the back of a richly caparisoned steed.

The colonel from Kentucky (Breckinridge) and the colonel from Missouri (Heard) had a genuine downright scrap in the lower house of congress last Friday. Mutual friends interfered and no blood was shed, although the affair was what is termed a congressional fight. If the honorable gentlemen were sent to the national legislature by their respective constituencies to give a sample of pugilism as practiced in their districts, they are not good representatives of the manly art, and cheaper combatants would put up a more satisfactory fight.

A BOSTON man familiar to New Englanders under the name of Col. Gas Addicks, has been down in Delaware for two or three months running for the United States senate, and has succeeded in getting six republicans to stand out for him, and cause a deadlock. The incident has been made the pretext of many heartless gibes by the section of country whence Col. Gas Addicks emanates, at the expense of poor little Delaware where the people are unsophisticated and liable to be flim-flammed by a blue bellied Yankee with a gold lining to his pockets. If Massachusetts had a title of her old chivalry, she would send a requisition down for Colonel Addicks and have the state commissioner bring him home and bottle him up until the legislature at Dover had selected a Delaware man for senator.—State Journal.

The making of a deputy oil inspector out of Ed J. Hall is pleasing to his republican friends, but a bitter disappointment to many fathers and sons of populism who believe that the ones who have borne the heat and burdens of the day are entitled to greater consideration than the one who comes into the thistle pasture at the eleventh hour. Four years ago Ed Hall was elected to the legislature as a democrat. Two years later he was placed on the pay roll in the same capacity. Some months later an anti-republican administration at Washington from whom he craved "recognition," plowed him under and rolled the ground, where he took root and sprouted and grew and bore populist fruit the first year. Political horticulture furnished no more striking example of spontaneous (almost combatible) growth and fruition. In one year a heady democratic seedling becomes a hoary pop chestnut with moss on its side, and its branches sheltering an enticing sinecure as any able editor could desire in these dull times. Mr. Hall may be mad, but there is method in his madness, and he is to be congratulated. Shake.—B.x.b.

SENATOR SHERMAN the other day disposed of the demagogical invention of Mr. Cleveland and Professor Wilson, says the N. Y. Advertiser, that it was not our revenue system which was draining the treasury of its resources. In a few clear-cut sentences the great financier conclusively showed that the impending collapse of the treasury was directly traceable to the kindergarten tariff legislation of last summer. The key to the present trouble is, as Mr. Sherman pointed out, that the expenditures of the government exceeded its receipts. All the proceeds of former bond sales, amounting to over \$116,000,000, have been paid out in treasury notes for current expenses, and these notes have come back for redemption in gold. If receipts had equal expenditures these notes would have remained in the treasury and it would be impossible to use them to sap away the gold reserve. "You can stop the drain on the gold reserve," exclaimed Senator Sherman, "by passing a law to increase the revenue." With the unerring skill of an expert physician, the Ohio senator puts his finger on the sore spot of the national finances. In the face of this exposition, Mr. Cleveland and Mr. Wilson's assertion that we are approaching a surplus will count as idle wind. These men are personally interested in hiding the actual truth from the people. The present congress will probably not alter the insane revenue legislation of last year, but the public will be no longer in doubt as to the exact responsibility for and the real secret of the threatened bankruptcy of the treasury.

WILL HAVE A SURPLUS

Secretary Carlisle Dissipates Gloomy Forebodings of a Deficit.

HIS LETTER TO THE SENATE.

Officially Estimates the Government at This Year Will Have a Surplus of Over \$22,000,000 Instead of a Deficit—Another Blow in the House.

WASHINGTON, Feb. 4.—Secretary Carlisle submitted a letter of information to the senate today which dissipates the gloomy forebodings as to a lack of revenue to carry on the government. It is in response to a resolution of inquiry adopted this week. The letter is as follows: In reply to senate resolution of January 28, 1895, that the secretary of the treasury be directed to inform the senate what is the estimated deficiency in the revenue of the government to pay current expenses between the 31st day of December, 1894, and the 31st day of December, 1895, and if the \$15,337,571.00 cash balance in the treasury on the 31st day of December, 1894, will be sufficient to meet such deficiency, I have the honor to state that from estimates made upon the basis of laws now in force it is believed for the 13 months ending December 31, 1895, the revenue of the government from all sources will exceed ordinary expenditures by \$22,563,023. Respectfully,

J. G. CARLISLE, Secretary.

The reading of the letter was closely followed by the senate. Mr. McPherson (Dem., N. J.) went to the clerk's desk to personally inspect it. Then Mr. Aldrich (Rep., R. I.) sent for it and a group of republican senators gathered about him and read it over his shoulder. Mr. Gorman smiled significantly at the secretary's direct and positive estimate of the ampleness of revenues.

Mr. Vilas (Dem., Wis.), from the judiciary committee, favorably reported the bill "striking Justice Howell Jackson from the United States supreme court bench and asked immediate consideration of the measure.

Mr. Aldrich, still holding Secretary Carlisle's letter, suggested that some other things would prevent the full consideration of this measure and it accordingly went over.

ANOTHER ROW IN THE HOUSE.

Representatives Hall and Hatch of Missouri Have a Wordy War.

WASHINGTON, Feb. 4.—During a hot colloquy over the adoption of an order to consider the currency bill, Mr. Hall (Dem., Mo.) denounced a statement of Mr. Hatch (Dem., Mo.) as absolutely false. Mr. Hatch defiantly declared that Mr. Hall would not use such language to him of the floor. Great confusion followed and the speaker was obliged to call the sergeant-at-arms to enforce order. The omni bus war claims bill was considered. Some routine business preceded the presentation of the special order. The conference reports on the fortifications and army appropriation bill were adopted.

It was proposed to authorize the Kansas and Northern Pacific R. R. Co. to construct a railroad across the Indian Territory, and to authorize the governor of Alaska to create precincts and precinct justices of the peace.

Must Get Leave of Absence.

WASHINGTON, Feb. 4.—Secretary Smith has made an adverse report on house bill 7,791, for the benefit of settlers on public lands in semi-arid sections. The object of the bill is to allow certain settlers in the Dakotas, Nebraska, Kansas and Oklahoma to make final proofs on their homestead and timber claims at the end of two years of continuous settlement and improvements, instead of the five years now in vogue. A large number of these settlers have been obliged to leave their homes temporarily to support their families because of long, continued drought, and Secretary Smith advises against legislation in view of the act authorizing local officers to grant leave of absence to settlers on public lands who, through total or partial destruction or failure of crops or other unfavorable casualty, are unable to maintain support for themselves and family on the land settled on.

Recalcitrant Sugar Witness.

WASHINGTON, Feb. 4.—The supreme court denied the application of Elverson R. Chapman, the recalcitrant witness in the sugar trust investigation, for a writ of habeas corpus on the ground that it was not competent for the supreme court to interfere in the matter until after the case should have been finally disposed of by the district courts.

Additional Hawaiian Correspondence.

WASHINGTON, Feb. 4.—The president today sent additional correspondence to congress. Most of it has been published hitherto. The chief feature is correspondence between Secretary Gresham and Minister Thurston in which the latter speaks of possible trouble the Hawaiian government will have in protecting foreign life.

Causes Grave Concern.

WASHINGTON, Feb. 4.—The report from Shanghai that a hunting party from the United States ship Concord has been over-powered and carried off by the natives near Chin Kiang because they had accidentally shot a Chinaman, although not yet officially confirmed, has given rise to grave concern at the navy and state departments. Chin Kiang lies on the Yang-tse-Kiang river, 146 miles above Shanghai, and just below the mouth of the Grand canal. The country is famous for its game, and whenever a naval vessel is in the harbor the officers avail themselves of the opportunity to hunt. It is felt at the state department, however, that the officers of the Concord showed very bad judgment in indulging their desire for sport while the country is now disturbed and the natives are so jealous of the presence of foreigners. It is

not believed, however, that the party is in great danger if the commander of the Concord shows prudence in dealing with the case. As to the best method of settling the matter and securing the release of the prisoners, there is a difference of opinion between the officials of the state and the navy departments. The former believe that the best course would be to rely on the Tatar general in command at Chin Kiang, who would compel the natives to give up their prisoners, and thus avoid any breach of international law. The naval officers on the other hand endorse the action of Captain Craig in sending an armed relief party from the Concord in pursuit, relying upon the fear of the natives of the American naval force to secure the prompt release of the officers.

DISPERSED BY MOUNTED POLICE.

Brooklyn Strikers March From Their Headquarters to the City Hall.

BROOKLYN, Feb. 4.—About 1:45 p. m. a crowd of strikers numbering about 1,000, headed by Master Workman Connelly, East, Collins and Giblin of the executive board of district assembly No. 75, marched from their headquarters on Bridge street up Fulton street to the city hall. When they reached the city hall they were greeted with cheers from 2,000 people who had congregated on the sidewalks in the neighborhood. The committee which was to present to the board of aldermen the petition which has been drawn consisted of Master Workman Connelly, East, Collins and Giblin. They ascended the steps of the city hall and the body of strikers, which had accompanied them to the city hall, marched around the square to Jerusalem street. While Police Inspector McKellar was attempting to disperse the mob a squad of mounted police, numbering about 50, who had been secreted in an alleyway behind the city hall, charged the crowd and drove them off the square. No particular trouble is apprehended and no arrests have as yet been made.

Revision of Ironworkers' Wages.

YOUNGSTOWN, O., Feb. 4.—The Mahoning and Shenango Valley Iron Manufacturers' association, composed of the leading iron concerns in eastern Ohio and western Pennsylvania, have served notice upon the Amalgamated association that at the expiration of 90 days a revision of the wage scale will be expected. This means that the \$4 rate per ton for puddling will be maintained no longer. Already a 60 days' notice to the Finishers' union for the same purpose has been given, and it looks as if before many weeks have gone by that this section will be the scene of a memorable discussion over the ironworkers' wages.

Shot at the Manager.

MARTIN'S FERRY, O., Feb. 4.—As Alexander Humphrey, manager of the Buckeye Glass company, was starting the works this morning three shots were fired at him by a crowd of union men who had followed him. None of the shots took effect and the man escaped. There is a strike on at the works. Manager Humphrey and nine employees were arrested today, charged by an officer of the Glass Workers' union with unlawfully assembling with loaded Winchester rifles and preventing citizens from speaking with nonunion men who arrived on the train to go to work in the mill. All furnished bail.

Appearance Day at Topeka.

TOPEKA, Feb. 4.—This was "appearance day" in the United States circuit court for the 1,000 settlers on Union Pacific lands who a short time ago were proceeded against by the United States district attorney on account of alleged defective titles to their lands. Only a few settlers came in person, others filed a written appearance through their attorneys and still others are allowed till March 4 to do so. A master will probably be appointed soon and the testimony will begin and probably be extended through several years.

Called to His Door and Assassinated.

KANSAS CITY, Feb. 4.—John C. Hayes, living in Kansas City, Kan., was called to his door by an unknown man last night and assassinated. No cause is known for the murder. Hayes was a laborer and had no known enemies.

GRAIN MARKETS WERE STEADY.

Provisions Dull and Lower on Liberal Hog Receipts.

CHICAGO, Feb. 4.—Wheat was steady and a trifle higher today. Cables were steady, northwestern receipts were much smaller than last year and the general expectation was for a 10,000,000 decrease in the supply. Foreign receipts were reported on both sides of the market and the demand here was sufficient to absorb the rather moderate offerings. May wheat advanced at 25c, touched 25c and reacted to 25c. Corn was steady, mainly in sympathy with wheat. May opened 1/2c lower at 45c, touched 45c and sold up to 45c. Oats were steady, following corn. May opened 1/2c lower, touched 25c and reacted to 25c. Provisions were dull and lower, influenced by liberal hog receipts. Packers were moderate sellers. May pork opened 1/2c lower at 50.00, May lard sold at 50.25 and ribs at 45.57 1/2. CLOSING PRICES.

WHEAT—February, 45c; May, 45c; July, 45c; September, 45c.

CORN—February, 45c; May, 45c; July, 45c; September, 45c.

OATS—February, 25c; May, 25c; July, 25c; September, 25c.
